Experience

Software Developer   *Cyenosure – Enter The Technoverse, Present*

- Developing a **mobile app** using **React Native** for the frontend and **Django** for the backend.

- Implemented features including **calling functionality** and **payment integration** using Django.

- Previously worked on another mobile app using **Ionic** for the frontend and **Django** for backend services.

- Collaborating with cross-functional teams to design and implement new features and optimize performance.

- Ensuring smooth integration between frontend and backend for seamless user experience.

Junior Software Developer   *Travidux Technology, Dec 2024 – July 2025*

- Developed an **ERP system** integrating **ERP and HRM solutions** for web and mobile.

- Designed and implemented responsive web frontends using **Angular**.

- Built cross-platform mobile frontends using **Ionic Framework**.

- Developed backend services using **Django** and **Django Rest Framework (DRF)**.

- Integrated APIs between frontend and backend to ensure smooth data flow.

- Optimized database performance using **PostgreSQL**.

- Collaborated with the team to enhance ERP and HRM solutions based on user feedback.

Projects

Spectra E-Commerce Website   GitHub

- Developed a comprehensive online platform for a spectacles shop with secure **OTP-based authentication**.

- Created a custom **admin panel** for managing offers, coupons, and product categories.

- Built features for user authentication, product listing, cart management, and payment integration.

- Implemented order invoice generation and PDF/Excel report downloads.

- Integrated **Razorpay** for secure payment processing.

- **Tech Stack:** Python Django, PostgreSQL, HTML, CSS, jQuery, Bootstrap, AWS EC2, Route 53.

Job Portal Project $\mathcal{S}$ GitHub

- Developed a **Job Portal** with **Angular (TypeScript)** frontend and **DRF backend**.

- Implemented role-based access for **Admin** and **User** dashboards.

- Admins can manage job listings, add/update/delete posts, and filter applications.

- Users can register, search jobs, apply, and track their application status.

- **Tech Stack:** Angular, Django Rest Framework, PostgreSQL, Git.

Education

Python Full Stack Development   *Present*
Bachelor of Computer Application, Indira Gandhi National Open University   *Ongoing*
